The Government intends to put a regulatory framework on foreign education providers at the earliest possible.

Advertisements from certain foreign institutions for admission to technical and professional courses have come to the notice of the Government. In order to ensure that quality of education is not adversely affected, the revised 'Regulations for entry and operation of foreign universities/institutions imparting technical education in India' have been notified on May 27, 2005 by the All India Council for Technical Education (AICTE). Accreditation of foreign university/institution by authorized agency in the home country is one of the conditions for registration. The Regulation provides for criteria to be laid down by the Standing Committee of AICTE on equivalence of qualifications such as degrees/diplomas. While the Regulation provides for infrastructure and other academic facilities, there is no provision for fellowships for students under it.

The AICTE has released public information in respect of approved institutions, both domestic or otherwise.
